MaxTV™
TV Speaker with Bluetooth®

Proficient MaxTV is a one-piece stereo TV speaker that sits underneath a flat panel TV. The MT2 is packed with a powerful bi-amped system that drives two down-firing 5¼" subwoofers, four 2½" mids and two 1" soft dome tweeters. The system connects to a TV via a digital coax, optical or analog audio cable. The simulated surround mode enhances the listening experience by creating a wide enveloping soundstage. In addition, Proficient MaxTV features built-in Bluetooth® wireless technology for streaming music from smartphones.
